The RAMS Horn

Monthly Recap**October in Review**

Well, it's cold again. Haha, last month we had several pleasant days in the 60's. Some pictures are on the next page. Unfortunately at least short-term, the forecast looks pretty brisk.

At the last meeting we discussed the SWARM club no longer being an AMA sanctioned club. That has happened and all assets have been moved to the RAMS club.

We also discussed the possibility of using the company dualrates.com to handle our website and membership management, including online payments.

Tim Sorensen emailed the members a sample website created by the company.

Lastly, at the next meeting, **Joe Milanowski** will give a demonstration regarding lift, drag, formulas, coefficients, aspect ratio, and airfoil layout. These topics would be in general terms without math to make the members aware of some of the factors involved in airplanes design.

AROUND THE AREA

Upcoming Events

11/04/2023, 9AM - 12PM

Swap N Shop

Chicagoland RC Modelers

01/28/2024, 8:30AM - 2PM

Swap Meet

Milwaukee Co. RC Assoc.

Washington Co. Fair Park

West Bend, WI

At the field

October Flying Pictures

Tim Sorensen flew his giant Phoenix Model Waco. It has a real 7 cylinder radial engine that sounds amazing. With custom graphics, this plane is a real treat to watch fly.

At the field

October Flying Pictures

Greg Dake was spotted flying his Hanger 9 Tiger 30cc, which is setup for electric. It's a big, beautiful plane that flies well.

Mike McCullough picked up this RC Guys Ag Wagon last month and got it in the air. It's powered by a Zenoah 45cc gas engine.

It looks like it's running a little rich! Actually this crop duster is equipped with a smoke system!
