**Monthly Recap**

## January in Review

At our last meeting, we voted on our officer nominations. The previous officers from last year will remain in their same positions this year.

January didn't provide many or any days to try out some flying from the snow. We either had bitter temps or gusty winds. Judging from the lack of tire tracks down the driveway, it doesn't seem like anyone has been out to the field.

Got a winter project? **Tim Sorensen** is restoring an old model for a friend and updated us on his progress. The model isn't planned to be flown anymore, just hung on the ceiling. Tim brought in some Oratex that he is going to use to cover it.

## AROUND THE AREA

## Upcoming Events

## Show and Tell

## Glider and Trainer

**Roy Hippert** brought in this electric powered glider that he built from a kit. Looks great and the covering job is excellent.

**Tom Ryan** brought in this Aero Scout and told us all the pros of this being a great first plane and trainer to buddy box with. It's big advantage is being configured as a pusher, protecting its propeller.
